PROJECTS

- ### ODISHA DISASTER MANAGEMENT PROGRAMME

  📅 August,2022 -present

  Created a website where volunteer can register from a particular age group, to help people near to their area during natural calamities.

  HTML,CSS, Tailwind CSS, JS base website which provides danger notifications and real-time weather report through api.

  • Provides Realtime disaster news from local news providers through api.
  • Website also provides different NGOs to join and register with us
  • It helps the government to provide the man power which they lack to provide in proper time.
  • Did some of this during the 1st year of my college (CODE4ODISHA, ITER Hackathon offline) and now some features are ongoing.

- ### SMART VILLAGE MANAGEMENTPROGRAMME

  📅 December 2022 -present (ongoing)

  Creating a website to connect all village shops, vendors, hawkers, doctor clinics, Schools so that villagers can take facilities of home delivery and unknown shops come to notice of publics and also, they can get which doctor is available in which clinic and book an appointment from that.

- Technology -React JS, MongoDB , node js(express)Tailwind CSS
- Doing under KRS Classes (KIIT ROBOTICS SOCIETY)

EXPERIENCES

INTERNSHIP
- FILLAAP STUDIOS (*ONLINE*)
  - May 2023 Haryana, India
